ABSTRACT

One year after the Union of Soviet Socialist Republics' accession to the Universal Copyright Convention a survey by the National Science Foundation revealed certain trends in U.S.-U.S.S.R. negotiations for their rights to reproduce and translate scientific and technical journals. For some U.S. publishers (Scientific and professional societies, university presses, commercial publishers, and information industry vendors) there has been the problem of achieving an equitable return for granting the Soviets the rights to continue reproducing 270 U.S. scientific and technical journals to satisfy over 100,000 subscriptions in the U.S.S.R. and East European countries. For others, there has been the problem of securing at minimum cost the rights to continue translating over 150 Soviet journals for the benefit of the U.S. English-reading scientific and technical community. Although initial uncertainties about Soviet negotiating plans and strategy have been reduced by passage of time, accumulation of negotiating experience by U.S. publishers, and the communication of relevant information between U.S. publishers and the Federal Government, less than one fifth of U.S. publishers have completed agreements with the U.S.S.R. A chart giving the status of reproduction rights for 164 U.S. journals is appended. (Author/DGC)

U.S.-U.S.S.R. COPYRIGHT NEGOTIATIONS ON SCIENTIFIC AND TECHNICAL JOURNALS

I. Summary

A year after the U.S.S.R.'s accession to the Universal Copyright Convention (UCC) certain trends in U.S.-U.S.S.R. negotiations for the rights to reproduce and translate scientific and technical journals have become more discernible.

For some U.S. publishers (scientific and professional societies, university presses, commercial publishers and information industry vendors) it has been basically the problem of achieving an equitable return for granting the Soviets the rights to continue reproducing 270 U.S. scientific and technical journals to satisfy over 100,000 subscriptions in the USSR and East European countries, and, for others, of securing at minimum cost the rights to continue translating over 150 Soviet journals for the benefit of the U.S. English-reading scientific and technical community. The problem has been further complicated by the shadow of antitrust regulations, competition of the free marketplace, and the lack of information and guidance for negotiating with the Soviets.

Initial uncertainties about Soviet negotiating plans and strategy have been reduced by passage of time, accumulation of negotiating experience by U.S. publishers, and the communication of relevant information between U.S. publishers and the Federal Government.

This report presents the results of a survey of U.S. publishers conducted by the National Science Foundation's Office of Science Information Service in March-April 1974. Principal findings are:

- (1) Over half of the U.S. publishers, responsible for three-fourths of the U.S. journals in question, declined the Soviet standard offer of a 7.5 percent royalty based on the Soviet subscription price. This price is generally lower than the U.S. domestic or foreign rate.
- (2) Most U.S. publishers, who declined the Soviet offer, have counterproposed terms and conditions that would either recover first copy costs or provide a reasonable return on investment; counter-offers range from full subscription price, higher royalties, barter and/or royalty packages, to individual or bulk sales discounts.
- (3) The relatively slow rate of progress in completing agreements with U.S. publishers has caused the Soviets to increase their subscriptions for a limited number of U.S. journals. These subscriptions will be placed in key libraries and information centers throughout the U.S.S.R. from which single photocopying service will be provided on demand.
- (4) Less than one-fifth (30) of U.S. publishers have completed agreements with the U.S.S.R. Of these, about one-half accepted the Soviet standard 7.5 percent royalty offer, while the remainder negotiated a 10 percent royalty or an exclusive barter arrangement of translation rights in return for reproduction rights.
- (5) Three U.S. publishers have secured the translation rights to more than three-fourths of approximately 160 Soviet scientific and technical journals which are translated and republished in the United States. Of the 15 U.S. journals which the Soviets translate and republish in the USSR, the granting of translation rights by U.S. copyright holders has involved barter arrangements, royalty fees and inclusion of advertising, specifically aimed at Soviet markets, in the Soviet translated version of two journals.

II. Background

Soon after the Soviet Union acceded to the Universal Copyright Convention (UCC) on May 27, 1973, there was considerable uncertainty and lack of information on how the Soviets intended to implement their UCC membership and how U.S. publishers of scientific and technical journals could negotiate reasonable and equitable arrangements.

Prior to their accession to the UCC, the Soviets had been photocopying 270 U.S. scientific and technical journals for sales distribution in the U.S.S.R. and member countries of the Council for Mutual Economic Assistance (CMEA)*. On the basis of 919 subscriptions to the U.S. journals, the Soviets were reproducing 75,771 subscriptions for internal consumption and 35,313 for distribution in CMEA countries. Soviet annual subscription rates for more than 70% of these journals were well below the prevailing U.S. domestic or foreign subscription rates. The average number of subscriptions per journal distributed in the USSR was 280; in CMEA countries, 130. Highest total circulation of 1480 subscriptions is claimed for *Scientific American*; lowest of 56, for *Meteorological and Geophysical Abstracts*. The top 32 journals in circulation volume span a range of 700 to 1480. Appendix A (page 10) lists the top 20 journals in rank order. The Soviets also had been translating and republishing in Russian 15 U.S. journals of 8 U.S. publishers (see Appendix B, page 11). On the U.S. side about 150 Soviet journals were being translated and republished in English, mostly on a cover-to-cover basis.

In June 1973, MIR Publishers circulated a form letter to the 160 U.S. publishers whose journals were being reproduced, requesting permission to continue reproduction through the end of 1973 and soliciting suggestions for arrangements for continuation of the reproduction effort in 1974. V O Mezhdunarodnaya Kniga (Mezhkniga), the Soviet import-export agency for the book trade, was identified as the designated agent for the negotiation of more durable arrangements. A new Copyright Agency of the U.S.S.R. (VAAP) was established following the U.S.S.R.'s accession to the UCC and began operation in January 1974. Among other functions, it represents authors, negotiates contracts with foreign societies for the protection of copyright. Further information may be obtained from and proposals on copyright matters should be addressed to VAAP, 6 B. Bronnaya, Moscow 103104, U.S.S.R. (Tel: 203-45-99). The Statute of the Copyright Agency is contained in Appendix C, page 12. proposals on copyright matters should be addressed to VAAP, 6 B. Bronnaya, Moscow 103104, USSR (Tel: 203-45-99). The Statute of the Copyright Agency is contained in Appendix C, page 12.

From July to October 1973 Mezhkniga followed up the MIR Publishers circular letter with a standard agreement offering a 7.5 percent royalty based on the Soviet subscription and convertible for payment in U.S. dollars. In return for this royalty consideration Mezhkniga would acquire the right to reproduce, print or publish the U.S. journal(s) for sales distribution in the U.S.S.R. and CMEA countries. Distribution in CMEA countries, however, generally would not exceed a specified number, usually the number that was previously being distributed.

III. Some Problems and Issues

To reduce uncertainties besetting U.S. publishers and to stimulate exchange of information, the National Science Foundation's Office of Science Information Service and the State Department's Office of Business Practices jointly sponsored or arranged for a series of meetings between publishers, the Soviet Embassy's representative on copyright matters, and appropriate agencies of the Federal Government. The first of these meetings, on August 15, 1973, provided information and guidance on how and with whom to deal with in the U.S.S.R., and identified a number of issues, including (1) the inequity of the royalty fee offered by the Soviets, (2) the concern over the possibility that the Soviets might interpret the "fair use" doctrine very broadly in the event they were unable to reach mutually satisfactory arrangements with Western publishers, and (3) antitrust violation implications in any

* Bulgaria, Cuba, Czechoslovakia, East Germany, Hungary, Romania, Poland and Mongolia

attempt by U.S. publishers to exchange information on royalty rates, and pricing and marketing practices in connection with contractual negotiations with the Soviets.

On the antitrust problem, at least two meetings were held in September and October with representatives of publishers, scientific societies and book trade associations and the Department of State, Department of Justice, the Federal Trade Commission and the National Science Foundation. These meetings affirmed the fact that under certain conditions freedom from antitrust violation is possible and that consortia can be formed for collective bargaining purposes. So far, we are unaware of the organization of any consortium.

In the last analysis, the fundamental issue facing publishers has been, and continues to be, that of equity. In the absence of a *quid-pro-quo* barter situation, the matter becomes one of exacting from the Soviets an equitable royalty fee. The 7.5 percent royalty, and in very few cases 10 percent, offered is considered by the majority of U.S. publishers to be inequitable. The International Group of Scientific, Technical and Medical Publishers (STM), affiliated with the International Publishers Association, has displayed the most vocal and collective expression of the Western scientific and technical publishing world's dissatisfaction with this situation. Article 2 of a Resolution adopted by the STM General Assembly just prior to the opening of the Frankfurt Book Fair in October 1973 states:

"Scientific authors, editors, and the publishing houses engaged in disseminating the results of their work believe that the granting of licenses at rates far below the true cost of creation, as expressed in the subscription rate permitting the Soviet Union to continue to reproduce many primary scientific, technical and medical journals published in other parts of the world, is contrary to the spirit, if not the letter, of the Universal Copyright Convention. This position is taken as well by many learned societies."

IV. Survey Results on Status of U.S. Negotiations*

As revealed by a survey recently concluded by the National Science Foundation (NSF), the reaction of the majority of U.S. publishers has been in line with the STM Resolution.

During March-April 1974, the NSF's Office of Science Information Service canvassed 155 U.S. publishers on the status of their negotiations with the Soviet Union regarding reproduction rights to their journals. The general results of this survey are shown in Table I. A listing according to general categories of response of the publishers, with their journal titles, circulation volume for the U.S.S.R. and CMEA countries, and U.S. and Soviet subscription prices may be found in Appendix D, page 20. Data on circulation volume and subscription prices in this Appendix is based on information provided by the Assistant Commercial Counselor of the U.S.S.R. Embassy in Washington in August 1973 and does not reflect changes that may have taken place since that time.

Less than one-fifth (30) of the publishers have granted any kind of reproduction rights, while more than one-half (94) have declined the Soviet standard 7.5 percent royalty offer and have counterproposed more equitable terms, or have yet to respond to the Soviet offer. Nineteen publishers claimed to have not received an offer from Mezhdunarodnaya Kniga. Journals of two publishers have ceased publication, and the status of negotiations by 19 other publishers is unknown.

* Under Contract NSF C-743, the Science Communication Division, Department of Medical and Public Affairs, The George Washington University provided assistance in collection and analysis of survey data.

Table 1. Status of U.S. Publisher Negotiations with U.S.S.R.

	Publishers		Journals	
	No.	%	No.	%
1. Completed Agreements	30	(18)	35	(13)
2. Soviet Proposal Declined - Negotiations				
Continuing	70	(42)	165	(61)
3. No Response to Soviet Proposal	24	(15)	29	(11)
4. Not Contacted by Soviet Agency	19	(12)	20	(7)

6. Status Unknown	19	(12)	19	(7)
TOTAL	164*	(100.0)	270	(100.0)

* The actual number of publishers is 158. This figure is higher because some publishers have multiple journals whose status falls in more than one category.

Completed Agreements

Table 2 describes the number and kinds of completed arrangements. Details are reported only in cases where publishers have granted permission for their publication.

Fifty-four percent of the agreements were based on the Soviet offer of a 7.5 percent royalty for each subscription based on the *Mezhdunarodnaya Kniga* subscription price in rubles. The royalty is payable to the U.S. publisher in equivalent U.S. dollars before the end of the subscription period. The standard Soviet agreement contains seven articles. In addition to the royalty clause and the granting of the right to reproduce for calendar year 1974, the agreement includes clauses on distribution rights for CMEA countries in a specified number of copies, and on arbitration excluding reference to courts of law. A sample copy of the standard agreement is contained in Appendix E, page 51. One of the 16 agreements negotiated provides for payment of royalties retroactive to June 1, 1973.

Of the four agreements renegotiated for a 10 percent royalty, one specifically prohibits distribution to CMEA countries, while two require delivery to the U.S. publisher of a copy or copies of each issue published.

Scientific American, which has the largest total circulation (1480 subscriptions) of any of the reproduced journals, negotiated a graduated scale of royalties from 7 to 10 percent, and a 10 percent royalty on the selling price of tapes, microfilms and other derivatives and by-products.

In October 1973, Scripta Publishing Company, representing itself and nine professional and scientific societies*, concluded a barter agreement with *Mezhdunarodnaya Kniga* in which the rights were acquired for translating articles from 33 Soviet journals to be published in 21 English-language translation journals. In return, the Soviets were given the right to *translate and publish* eight and to *reproduce* 11 U.S. journals of Scripta Publishing and the societies.

* American Association of Petroleum Geologists; American Geological Institute; American Geophysical Union; American Society of Mechanical Engineers; Entomological Society of America; Geological Society of America; Mineralogical Society of America; Society of Economic Paleontologists and Mineralogists; Society of Exploration Geophysicists.

* Also involved rights to 8 additional U.S. journals of the American Institute of Chemical Engineers which were being translated (not just reproduced) and which are not included in the list of 270 journal titles.

of Mechanical Engineers which were being translated (not just reproduced).

Continuing Negotiations

While more than half (94) of the 160 U.S. publishers, accounting for more than three-fourths (194) of the journals, have rejected the Soviet standard agreement offer, the majority of decliners (66) have counterproposed terms and conditions to Mezhkniga that are designed to achieve equity. Table 3 indicates the five broad categories of counterproposals.

Ten of 36 publishers, whose counter-offer terms have been revealed, demand full subscription price in return for granting reproduction rights to the Soviets. However, 23 out of the 36 publishers accounting for more than one-third (99) of the journals are willing to settle for something less than full subscription price, but more than the Soviet standard offer. Discounts offered by the U.S. publishers range from 10% to 50% of list price.

Publishers of multiple journal titles dominate the continuing negotiation scene. These include scientific and professional societies such as the IEEE with 19 titles, the American Institute of Physics - 17, the American Chemical Society - 12 including *Chemical Abstracts*, the American Mathematical Society - 6; and commercial publishers such as Academic Press - 16, McGraw Hill - 7, Wiley Interscience - 4, Lippincott - 4, and Williams & Wilkins - 4. Also involved in continuing negotiations are all of the secondary journals which command high subscription prices, such as *Chemical Abstracts* (\$2900), *Current Abstracts of Chemistry and Index Chemicus* (\$1400), *Biological Abstracts* (\$1000), *Meteorological and Geostrophical Abstracts* (\$400), and *Mathematical Reviews* (\$420).

For the non-profit scientific and professional society publisher, it is a matter of recovering at least the first copy cost; for the commercial publisher, a reasonable return on his investment. In either case, there is a strong opinion that equal treatment should be accorded to all purchasers of their journals throughout the world and that the Soviet Union should not be given a "favored nation" status that U.S. acceptance of a 7.5 percent royalty would imply.

Table 3. Types of U.S. Publishers Counter Proposals to the U.S.S.R.

	Publishers		Journals	
	No.	%	No.	%
1. Higher Royalty	5	(8)	6	(4)
2. Barter and/or Royalty	7	(11)	26	(16)
3. Full Subscription Price	10	(15)	16	(10)
4. Discount: Individual or Bulk Sales	11	(17)	67	(43)
5. Reproduction Limited to Individual Articles	3	(4)	3	(2)
6. Terms and Conditions Not Revealed	30	(45)	40	(25)
TOTAL	66	(100.0)	158	(100.0)

Lacking reproduction agreements for the bulk of desired U.S. scientific and technical journals, the Soviets are pursuing alternative means for ensuring the flow of U.S. information to Soviet scientists and engineers. One approach consists of using limited foreign exchange to purchase additional subscriptions for selected journals. For example, subscriptions to *Chemical Abstracts* have increased from two in 1973 to over 50 for 1974 and for the *Journal of Biological Chemistry*, from six to over 40 in the same years. According to Soviet officials, copies of these selected journals will be placed in key libraries and information centers throughout the U.S.S.R. to supply single photocopy service on demand. For this purpose the budget allocation for photocopying controlled by the State Committee for Science and Technology under the U.S.S.R. Council of Ministers has been increased from 20 million pages in 1973 to 30 million in 1974. The practice would be permissible under the UCC and the Soviet domestic copyright law as revised on February 28, 1973. Article 103, Subdivision 7 of that law permits use of a work without the author's consent and without payment of royalty in the case of "reproduction of printed works for scientific, education, and enlightenment purposes without deriving profit."

Journals Translated by the U.S.S.R. and U.S. Publishers

While the Soviets publish only 15 translation journals based on U.S. journals, U.S. publishers translate and re-publish in English more than 160 Soviet journals. More than three-fourths of the 160 Soviet journals translated in the U.S. are produced by four major publishers of scientific and technical translations: Plenum Publishing Corporation, Scripta Publishing Company, Allerton Press, Inc., and the American Institute of Physics.

Both Plenum and Allerton had arrangements for translation rights prior to the U.S.S.R. accession to the UCC. Essentially similar arrangements have been continued. The American Institute of Physics is currently negotiating a barter arrangement involving its own English-language physics journals and 15 Soviet journals which it translates. Scripta, representing itself and a number of scientific societies as mentioned above, had negotiated a barter arrangement involving granting of translation rights to eight U.S. journals of the American Society for Mechanical Engineers and reproduction rights to 11 other U.S. journals in return for translation rights to 33 Soviet journals.

Of the seven remaining U.S. journals translated by the Soviets, two have made notable arrangements. The Soviets have agreed to include in the Soviet translated versions of McGraw-Hill's *Electronics* and Petroleum Engineer Publishing Company's *Petroleum Engineer* advertising aimed specifically at the Soviet electronics and petroleum engineering markets. *Petroleum Engineer*, for example, is offering a black-and-white page for about \$750 and a color page for about \$1,000. Negotiations continue for translation rights to the remaining U.S. journals.

Appendix E, page 54, contains a sample copy of the type of agreement the Soviets are offering to U.S. publishers seeking translation rights to Soviet scientific and technical journals.

* * *

The Office of Science Information Service will continue to monitor copyright negotiations between U.S. publishers and the new Soviet Copyright Agency. Results will be reported from time to time.

The Copyright Agency of the USSR

MOSCOW 103104

60, B. Bronnaya.

Following the signing by the Soviet Union of the Universal Copyright Convention, a Copyright Agency of the USSR has been set up. The purpose of this non-governmental organization is to protect the rights of Soviet and foreign authors in this country and to represent the interests of Soviet authors abroad.

Under the Statute endorsed by the conference of its sponsors, the Agency will act as an intermediary in the conclusion of copyright agreements one party to which is a foreign author or firm, i. e. all agreements on the use abroad of works by Soviet authors and on the use of works by foreign authors in the USSR. The Agency will settle accounts connected with such agreements and see to it that payments are made punctually.

The Agency is also responsible for the collection, allocation and transmission of royalties for the public performance of works by Soviet and foreign authors in the territory of the USSR, and also for the use of works of art. To this end the Agency will conclude bilateral implementing agreements on mutual representation of interests with authors' organizations and societies in the countries party to the Universal Copyright Convention.

The Agency is also a national copyright information centre. It will regularly inform authors' organizations and firms of new works in Soviet literature, science and art.

We hope to have fruitful cooperation with our counterparts in the protection of authors' rights.

**On behalf of the Board of the
Copyright Agency of the USSR**

**BORIS PANKIN
Chairman of the Board**

Statute of the Copyright Agency of the USSR

Statute of the Copyright Agency of the USSR

I. General Provisions

1. The Copyright Agency of the USSR (VAAPI) is a non-governmental organization operating under Articles 125 and 126 of the Constitution of the Union of Soviet Socialist Republics. Its purpose is:
to ensure the protection of the rights of Soviet and foreign authors and their successors in title in scientific, literary and artistic works when they are used in the territory of the USSR, and the rights of Soviet authors and their successors in title in their works when they are used abroad;
to help create the most favorable legal, moral and material conditions for scientists, writers and artists to engage in fruitful work;

1/2-67

3

**Устав
Всесоюзного
агентства
по авторским
правам**

to expand international cooperation in the cultural and scientific fields;

to promote in every way the acquaintance of people in other countries with the best works of Soviet literature, science and art, and to promote the exchange of cultural values between nations.

with foreign legal and natural persons on the use of works by foreign authors in the USSR;

- d) to receive and pay royalties under agreements (contracts) on the use of works by Soviet authors abroad and foreign authors in the USSR, concluded through the offices of the Copyright Agency of the USSR or directly by the Copyright Agency of the USSR;
- e) to collect and pay royalties due to Soviet and foreign authors and their successors in title for the public performance of works in the territory of the USSR, to receive and pay royalties to Soviet authors and their successors in title for the public performance and for other types of legitimate use of works by Soviet authors abroad not covered by agreements;
- f) to receive and pay additional fees for cinema and television films and for the reproduction of works on gramophone records (pending on the number of copies made; and also to collect and pay royalties for the use of works of art;
- g) to receive and pay royalties due to the heirs of Soviet authors for the use of the works of these authors in and outside the USSR;
- h) to collect and transmit deductions to the Literary Fund, the Musical Fund and the Journalists' Fund of the USSR;

4

5

- i) to inform Soviet theatrical organizations about new dramatic works and to supply them with such works;
 - j) to participate in the work of international non-governmental organizations on copyright matters;
 - k) to participate, according to the proper procedures, in the preparation and conclusion of international agreements and treaties on mutual copyright protection and to conclude, within the terms of reference of the Copyright Agency of the USSR, implementing agreements with appropriate organizations of the countries party to the Universal Copyright Convention and of the countries with which the USSR has concluded bilateral agreements on mutual copyright protection;
 - l) to participate in international copyright conferences and meetings;
 - m) to exchange information on questions relating to registration of authors and their works, documents and other material necessary for ensuring copyright protection with appropriate foreign organizations on the basis of reciprocity and in line with existing implementing agreements;
 - n) to maintain a record of works by Soviet authors which are publicly performed in the USSR and
- a record of these authors, and similarly to maintain a record of other works by Soviet and foreign authors royalties for which are paid through the offices of the Copyright Agency of the USSR, and a record of these authors;
- o) to examine Soviet practice in the field of copyright law enforcement and the copyright law of other countries and the methods of its enforcement; with respect to international copyright protection; to draw up proposals aimed at the further improvement of Soviet copyright law and at coordinating the activities of Soviet organizations in the matter of copyright protection;
 - p) to issue instructions and explanatory instruments relating to copyright matters within its terms of reference on the basis and in pursuance of the existing Soviet legislation;
 - q) to advertise abroad Soviet scientific, literary and artistic works, the cost of such advertisement to be charged against the royalties due to Soviet authors.
2. Under Soviet law, the right to use outside the USSR a work by a Soviet author, which has or has not been previously published in or outside the USSR, may be assigned by the said author or by his successor in title to a foreign user only through the offices of the Copyright Agency of the USSR, except in

3-67

6

7

cases expressly specified in Soviet legislation; the same procedure applies to the granting of rights for the use of works by foreign authors in the territory of the USSR.

3. The Copyright Agency of the USSR may set up its branch offices in the union and autonomous republics, territories and regions of the USSR and to reorganize or close them as necessary; it may appoint its representatives in regional centres and other large cities of the USSR and establish its permanent bureaus abroad; it may also conclude brokerage agreements with foreign legal and natural persons on the representation and protection of its interests abroad.

II. Governing Bodies

4. The highest governing body of the Copyright Agency of the USSR is the Conference of Sponsors of the Agency (the Union of Writers of the USSR, the Union of Artists of the USSR, the Union of Composers of the USSR, the Union of Journalists of the USSR, the Union of Cinematographers of the USSR, the Union of Architects of the USSR, the Academy of Sciences of the USSR, the State Committee of the Council of Ministers of the USSR for Publishing, Printing and Book Trade, the State Committee of the Council of Ministers of the USSR for Science and Technology, the State Committee of the Council of

Ministers of the USSR for Television and Radio Broadcasting, the State Committee of the Council of Ministers of the USSR for Cinematography, the Ministry of Culture of the USSR, the Ministry of Foreign Trade of the USSR, and the "Novosti" Press Agency).

The Conference of Sponsors of the Copyright Agency of the USSR is convened at least once every five years.

The procedure for the election of delegates to a regular conference and representation quotas are determined by the Council of Sponsors of the Copyright Agency of the USSR.

The Conference:

- a) endorses and amends the Statute of the Copyright Agency of the USSR;
- b) elects the Council of Sponsors of the Copyright Agency of the USSR;
- c) reviews reports of the Council of Sponsors of the Copyright Agency of the USSR;
- d) lays down guidelines for the activities of the Copyright Agency of the USSR and decides questions pertaining to its reorganization or its liquidation.

5. The composition of the Council of Sponsors of the Copyright Agency of the USSR is decided upon by the Conference of Sponsors.

The Council of Sponsors is convened at least once a year.

6. The Council of Sponsors of the Copyright Agency of the USSR:

- a) elects the Board of the Agency consisting of Chairman of the Board, First Deputy Chairman, deputy chairmen and members of the Board;
- b) elects the Auditing Commission of the Agency consisting of Chairman, Deputy Chairman and members of the Auditing Commission;
- c) lays down the guidelines for the activities of the Agency between Conferences of Sponsors;
- d) reviews and approves the annual plans and reports of the Agency Board;
- e) reviews reports of the Auditing Commission;
- f) approves the procedure for the distribution of royalties payable for the public performance of literary, artistic and musical works in concerts and other assembled programmes.

Decisions made at meetings of the Council of Sponsors are valid only if such meetings are attended.

ed by no less than 50 per cent of the Council members. The decisions of the Council are taken by a simple majority of votes.

7. The Board of the Copyright Agency of the USSR is set up by the Council of Sponsors in order to exercise executive direction of the work of the Copyright Agency of the USSR.

The Board of the Copyright Agency of the USSR:

- a) directs the day-to-day activities of the departments, sections, branch offices and other divisions, and also organizations and enterprises of the Agency;
- b) represents the Agency in its relations with Soviet, foreign and international organizations, and also with natural persons in pursuance of the objectives of the Agency;
- c) organizes and verifies the implementation of the decisions of the Conference and the Council of Sponsors;
- d) administers the funds of the Agency and exercises control over the implementation of the financial plans and budgets of the Agency, its branch offices and other organizations and enterprises of the Agency;
- e) reviews and endorses the estimate of the Fund and the report on the actual Fund figures;

f) draws up the annual financial plan and prepares the annual financial report of the Agency and submits them to the Council of Sponsors for approval;

g) approves the structure, the staffs and the estimates of administrative and managerial expenditures of the branch offices, organizations and enterprises under the Agency's administration and also the staffs of the departments and sections of the head office of the Agency;

h) considers other questions within the terms of reference of the Agency Board.

8. The Chairman of the Agency Board, who is elected by the Council of Sponsors, directs the day-to-day activities of the Agency.

The Chairman of the Agency Board is empowered to decide questions which are within his terms of reference in accordance with the legislation of the USSR in force, the present Statute or the decisions of the governing body of the Agency.

9. The Auditing Commission reviews the work of the head office and the local bodies of the Agency from the viewpoint of prompt and correct performance and the fulfillment of decisions taken by the Conference and the Council of Sponsors and of the financial plans and budget of the Agency.

III. Legal Status and Finances

10. The Copyright Agency of the USSR is a legal person: it has fixed and circulating assets and may, in its own name, acquire rights and discharge responsibilities, enter into transactions and agreements pursuant to its functions and act as complainant and defendant at courts of law and at courts of arbitration.

The Agency may open current accounts and other accounts at the State Bank of the USSR, the Vneshtorgbank of the USSR, and other banks; it may receive credit and conduct other economic activities necessary for the discharge of its functions.

11. The Copyright Agency of the USSR has its seal bearing its name and its emblem, and also a stamp bearing its name.

12. The revenue of the Agency is made up of commissions deducted from royalties paid to Soviet and foreign authors and their successors in title through the offices of the Agency, and also commissions deducted from the sums collected by the Agency for the Literary Fund, Musical Fund, and Journalists' Fund of the USSR.

In the event of the expenditure of the Agency exceeding its income the deficit is to be covered by

those Sponsors to whom the users of works are subordinated.

13. The funds of the Agency are used to finance its activities and to build up the Fund of the Board of the Copyright Agency of the USSR, and are administered in accordance with the budgets approved by the Agency Board.
14. The fiscal year of the Agency has been established as the period between January 1 and December 31.
15. The Soviet State and its organs and organizations bear no responsibility either for the activity of the Agency or for its commitments. The Agency is not responsible for the commitments of the Soviet State, its organs and organizations.
16. The Copyright Agency of the USSR can be liquidated by decision of the Conference of the Agency's Sponsors.
17. The seat of the Copyright Agency of the USSR is at Moscow where the Agency Board is located.

Appendix E. Sample Soviet Agreement for Reproduction Rights to U.S. Journals

AN AGREEMENT

made the _____ day of _____ 19____ between V.O. "Mezhdunarodnaya Kniga" of G-200 Moscow, Union of Soviet Socialist Republics, herein called Mezhkniga on the one part and (U.S. publisher) herein called the Publishers on the other part. Whereas the publishers are publishers of a _____ journal with the title _____ (herein called "the journal"), they have arranged with Mezhkniga that the said trade organization shall reproduce, print or publish certain issues of the journal on the terms hereinafter contained.

NOW IT IS HEREBY AGREED as follows:

1. The Publishers hereby grant to Mezhkniga the right to reproduce within the territory of the U.S.S.R. all issues of the journal published by the Publishers in U.S.A. between the first day of January 19____ and the thirty-first day of December 19____.

2. Furthermore, the Publishers grant to Mezhkniga the right to distribute copies of the journal reproduced by Mezhkniga from issues published by the Publishers in U.S.A. between the first day of January 19____ and the thirty-first day of December 19____ in countries other than the U.S.S.R., namely CMFA countries provided that the number of copies of each issue so distributed does not exceed _____ copies.

3. That Mezhkniga shall pay to the Publishers a royalty based on the subscription price charged by Mezhkniga of seven and one half percentum of each subscription so charged in the U.S.S.R. and other countries. The said royalty to be used on the subscription price of _____ roubles. The royalty to be paid to the Publishers at a place nominated by the Publishers in U.S. dollars; the said royalty to be converted to U.S. dollars at the official exchange rate of the State Bank of the USSR then operating. The foresaid royalty to be made to the Publishers by Mezhkniga before the end of subscription period.

4. The Publishers shall retain the sole copyright and any other rights to the journal, save that they shall allow Mezhkniga to reproduce the journal subject to this agreement.

5. Mezhkniga hereby agrees to indemnify the Publishers from any claims which may arise from the transcription of the journal by Mezhkniga or its agents.

6. All the differences and disputes which may arise from the present Agreement or in connection therewith are to be settled by direct discussions between the parties. Should such discussions give no results, the disputes are to be submitted to arbitration for settlement.

If Mezhkniga is the defendant, the procedure will take place in the Foreign Trade Arbitration Commission at the U.S.S.R. Chamber of Commerce and Industry in Moscow in accordance with the rules of procedure of this Commission.

If the Publisher is the defendant, the procedure will take place in New York with arbitration mutually acceptable to both parties.

The decisions of the arbitration are final and binding upon both parties. Reference to courts of law is excluded.

7. All amendments and supplements to the present Agreement are valid provided they are made in writing and duly signed by authorized representatives of both parties.

After signing of the present Agreement all previous negotiations are correspondence on the questions settled by the Agreement become null and void.

In witness whereof the parties hereto have signed by their duly appointed officers the day and year first before written.

Appendix F. Sample Soviet Agreement for Translation of Rights to USSR Journals

AN AGREEMENT

made this _____ day of _____ 19____ between the Copyright Agency of the U.S.S.R. (VAAP), Moscow (hereinafter called the Proprietor) of the one part and [U.S. Publisher], [City] (hereinafter called the Publisher) of the other part, concerning the translation into the English language of the Soviet scientific journals.

1. The Proprietor guarantees that he has the right to conclude the present Agreement for translation and publishing in the English language of the Soviet scientific journals and the right to receive payments hereinafter stipulated.

2. In Consideration of the payments hereinafter stipulated the Proprietor grants to the Publisher the exclusive right to translate into the English language and to print, publish and sell such translations of Soviet scientific journals, specified in the Supplements to the present Agreement which are an integral part of the present Agreement. Such right shall extend to all derivatives and by-products of the translations made by the Publisher such as tapes, microfilms, indexes and anthologies.

3. To facilitate the translation and printing of the journals specified in the present Agreement the Proprietor shall present to the Publisher just as soon as they are published three free copies of each journal, to be sent by air mail.

The Proprietor will also furnish the Publisher at the earliest possible time with full size glossy photostats of original photographs for each such journal as well as galley proofs or page proofs for any such journal published in Leningrad or Moscow.

4. The Publisher agrees to publish the translations mentioned above within 6 months from the date of receipt of each original issue of the corresponding journal.

If the Publisher fails to publish said translation within this period and does not receive the Proprietor's consent for prolongation of this period all rights granted hereunder in respect of the corresponding journal shall revert to the Proprietor and the Agreement in respect of this journal shall terminate, except that the proprietor shall be entitled to all payments made by or due from the Publisher.

5. The Publisher guarantees to publish high quality translations, with complete adherence to the content of the original as provided by the Proprietor and also to provide high quality graphic reproduction. The Publisher has no right without the Proprietor's preliminary written consent thereto to make any amendments, significant abridgements, additions to the original text, or to change the authors' names or titles.

The title and the name of the Soviet publishers of the journals shall appear beneath the English title or on the back of the title-page of every copy issued in the Publisher's edition together with the full copyright notice of the Soviet publishers. In addition, the Publisher shall copyright the English translations of the journals, including requirements of the Universal Copyright Convention.

6. For the rights and services granted under the present Agreement the Publisher agrees to make the Proprietor for each journal the following nonreturnable payments:

(a) an advance payment of U.S. \$1000.00 (one thousand dollars) per year, payable up to the February 1st each year against the following royalty;

(b) 10% of the Publisher's selling price of the subscription sold;

(c) the Publisher's receipts from selling of tapes, microfilms and other derivatives and by-products mentioned in item 2 of the present Agreement shall be divided as follows: 50% for the Proprietor and 50% for the Publisher.

7. The Publisher shall render to the Proprietor quarterly accounts of sales, duly certified, and pay to the Proprietor all royalties due within 30 days of the expiration of each quarter of each calendar year.

The Proprietor and its duly authorized representatives shall have the right to inspect and examine the Publisher's books, records and accounts relating to the subject matter of this Agreement (and by the use of Certified Public Accountants designated in writing by the Proprietor) at all reasonable times and from time to time, during the continuance of the Publisher's obligations hereunder.

8. The payments due to the Proprietor provided by the agreement are to be effected by remitting the corresponding amounts to the Proprietor's account with the Bank for Foreign Trade of the USSR, Moscow. The Publisher will notify the Proprietor immediately of the payments made.

If the Publisher fails to render an accounting and to make payment within 60 days of the date on which any payment is due under this Agreement and fails to respond to the Proprietor's requests for such payment, then and in that event this Agreement shall terminate without further notice to the Publisher and all rights granted hereunder shall revert to the Proprietor who shall be free to dispose of such rights elsewhere without any prejudice to any claims which the Proprietor may have against the Publisher.

9. Three free copies of each issue translated shall be sent to the Proprietor on publication.

10. The Proprietor will inform the Publisher as soon as possible about any forthcoming changes in the size, title or contents of the journals and of the intention to discontinue journals enumerated in the attached Supplements.

If during the period of the Agreement the Proprietor will cease publishing any of the journals covered by the Agreement, the Publisher shall not present any claim and the execution of the Agreement will be terminated on the date of ceasing the publication as to this title.

The Proprietor agrees to render assistance to the Publisher in setting up business correspondence with scientific and scientific publishing organizations in the USSR concerning the publication by them of periodicals, so that the Publisher may be kept informed at the earliest possible opportunity of their publishing plans.

11. All expenses in connection with the translation, publication, advertising and distribution of the journals in accordance with the present Agreement are to be borne by the Publisher.

8. The Publisher will act on his own behalf in all operations with third persons in connection with the fulfillment of the present Agreement. The Proprietor will bear no responsibility for the Publisher's transactions with third persons.

12. The Proprietor will be bound by all means at its disposal to prevent the infringement by third parties of the rights of the Publisher as promulgated in the present Agreement. The parties shall immediately mutually inform each other as to any such infringement.

The Publisher shall be authorized to prosecute on his own behalf any such action or proceeding for such infringement, and the Proprietor, at the Publisher's expense, shall join in any such action or proceeding where necessary for the protection of the Publisher's rights. The Publisher shall be entitled to all damages recovered as a result of the foregoing but not at the expense of the Proprietor.

13. The present Agreement shall come into effect as on the date first set forth above when signed by the Proprietor and the Publisher, and its validity extends to all issues of the journals beginning with this date (if no other date stipulated in the Supplements) and through and including 19__, in the Russian edition.

The Agreement shall thereafter be automatically renewed for consecutive periods of one year each, unless either party shall notify the other party of its desire to cancel or modify this Agreement at least three months before the expiration of the period of its validity or of the current renewed yearly period

14. The Agreement terminates automatically if the Publisher should be declared bankrupt or violate any of the terms of this Agreement and not rectify such violation within one month of having received written notice from the Proprietor to do so.

Upon any termination of this Agreement all rights granted to the Publisher shall revert automatically to the Proprietor without prejudice to the Proprietor's right to any monies previously paid or then or thereafter payable to the Proprietor.

15. The Publisher shall have the right to assign this Agreement in whole or in part only written consent of the Proprietor thereto and the Proprietor shall not unreasonably withhold such consent.

All rights now existing or which hereafter come into existence and which are not specifically mentioned in this Agreement are hereby reserved to and by the Proprietor.

16. All taxes and duties, relating to the conclusion and fulfillment of the present Agreement, levied in the territory of the USSR, will be paid by the Proprietor, and duties and taxes levied in the territory of the Publisher, will be paid by the Publisher.

17. All the differences and disputes which may arise out of the present Agreement or in connection herewith are to be settled by direct discussions between the parties. Should such discussions give no result, the disputes are to be submitted to the Foreign Trade Arbitration Commission at the USSR Chamber of Commerce and Industry in Moscow for settlement in accordance with the rules of procedure of this Commission.

The decisions of the arbitration are final and binding upon both parties. Reference to courts of law is excluded.

18. All amendments and supplements to the present Agreement are valid provided they are made in writing and duly signed by authorized representatives of both parties.

After signing of the present Agreement all previous negotiations and correspondence on the questions settled by the Agreement become null and void

19. The present Agreement is signed in two copies.
